

Technical Data Sheet

White Wine Vinegar Acidity 6%

COMPOSITION

Ingredients: wine, antioxidant: E 224.
Reg. 1169/2011 Contains SULPHITES

Characteristics of the raw materials:
wines for acetification.

Organoleptic features of the finished product:
appearance: clear, bright.
colour: straw yellow.
bouquet: acid, with wine-like flavours.
taste: acid, without off-tastes.

Chemical-physical parameters:

Parameter		min	max	Limit values under the Law	
total acidity	%	6	6.2	min 6.0	D.P.R. n. 162, 12/2/65
total dry extract	g/l	8.0	-	min 8.0	D.P.R. n. 162, 12/2/65
ashes	g/l	0.8	-	min 0.8	D.M. 27/3/86
sulphur dioxide	mg/l	-	100	max 170	Dir. 94/.../CE
copper	mg/l	-	1.0	max 1.0	D.M. 27/3/86
zinc	mg/l	-	5	max 5.0	D.M. 27/3/86
lead	mg/l	-	0.3	max 0.3	D.M. 27/3/86

A Quality Assurance Programme ensures that the raw materials and the product comply with their typical parameters.

Each phase in production is carried out under the strictest mandates of the Law regarding the hygienic handling of foodstuffs in the manufacturing process.
